

DEPARTMENT OF ENVIRONMENTAL MANAGEMENT

INDIANAPOLIS

OFFICE MEMORANDUM

DATE: October 4, 1991

TO: File

THRU:

FROM: John P. Naddy *JPN*
Site Investigation Section

SUBJECT: Commonwealth Edison, Hammond, Indiana, IND016364507

Staff of the Office of Environmental Response, Site Investigation Section have reviewed the Preliminary Assessment of the above mentioned facility. It is unclear if the pile is coal or fly-ash. It is also unclear why Ecology & Environment did not try to gain access to the facility to determine the material in question. The State believes that before the site should be recommended for further investigation the contaminant of concern should be clarified.
